Interior and exterior, light to medium commercial, and residential Setting concrete forms, footings, and foundations (small-to-large jobs)

Application

Forms, footings and foundations (residential jobs)

■ Elevation control across small- and mid-size construction sites

Checking and setting elevations for small to medium job sites

Vertical alignment and plumb such as anchor bolt and form alignment

Single and dual slope grading and excavating applications

Single and dual slope grading and excavating applications

Grading Parking lots, tennis courts and driveways

Steep slope road embankments and ditch banks

Dual slope grading and steep slope excavating

Measuring slopes in open trenches and existing pipes

Single and dual slope grading and excavating applications

General construction, site preparation and road construction

Precision grade up to 25% in X, Y and Z axis

Drift free vertical alignment and plumb

Wireless remote monitoring with HL760

Septic tank or swimming pool installations

Estimating cut and fill

Leveling forms and footers

General elevation control

Leveling forms and footers

Basic slopes for driveways and ramps

Leveling and aligning of forms and footers

 Leveling and aligning of interior walls Installation of ceilings and raised floors Exterior walls and facades

Leveling concrete forms and footers

the construction laser business. We invented the industry. From day one, we have pioneered every major development in laser positioning for construction. That's why you'll find over one million of our professional rotating lasers on job sites around the world... more than any other brand.

There's a reason Spectra Precision is the strongest name in

Easiest to Use

Spectra Precision instruments are engineered with state-ofthe-art components, giving you the most dependable, easiest to use, laser on the job site. Spectra Precision products are always ready to work when you are.

Best Support

Each Spectra Precision product is built with the user in mind. That is why we test and retest every laser we manufacture to assure you the most dependable, accurate laser in the world. Backed by the world's largest network of repair centers, Spectra Precision is unmatched for service, support and dependability.

LL100N

Complete system in one case includes laser, HR320 receiver, rod. and tripod

Convenient storage and transportation.

Compensated self-leveling. maintains level automatically

 Maintains accuracy over the entire work area, and minimizes errors.

Robust design

 2 year no downtime warranty keeps productivity high and operating costs low.

11300N

New standard in ruggedness

Superior drop and weather protection.

Fully automatic self-leveling

Provides fast and accurate set-up.

Single axis manual slope mode via optional RC601 remote control

 RC601 makes slope matching a single person operation.

LL300S

Highly durable construction

Superior drop and weather protection.

Fully automatic self-leveling

Provides fast and accurate set-up.

Extremely versatile with single-axis manual slope

 Cross-axis self-leveling allows for grade matching on the job site.

HV302

Fully automatic H + V self-leveling

- Split beam enables plumb point transfer and 90 degree layout.
- Minimizes operating costs and boosts productivity.

Highly durable construction

Superior drop and weather protection.

Radio communication between the HL760 receiver and laser

 Provides automatic Grade Match and PlaneLok.

500 m (1,600 ft) working diameter

 Long-range accurate laser increases productivity by reducing the need for multiple setups on large job sites.

Built-in leveling system with out-of-level shut off

 Maintains accuracy over the entire work area and minimizes errors.

High accuracy laser, 1.5 mm per 30 m (1/16 per 100 ft) with temperature compensation

 Highly stable and repeatable accuracy even under large temperature changes

GRADE LASERS

GL412N/GL422N

Fully automatic self-leveling performs three iobs cost effectively

■ Level. -10 to +15% grade, and vertical alignment with plumb.

Full function remote control does everything you can do at the laser keypad

 Make grade changes from anywhere on the job reducing setup times.

Menu driven user interface

 Reduces learning time and eliminates complex button pressing.

GL612N/GL622N

Ultimate Control of X/Y Axes

■ Fully automatic up to +/-25% grade on X/Y axes.

Wireless communication with HL760

- Grade Matching easily measure unknown grade between two points.
- PlaneLok locks the beam to a fixed elevation or vertical alignment point for maximum stability and accuracy.

2-way full function radio remote control

 Perform all functions at the laser keypad anywhere on the job site.

GL710. GL720. GL722 Single & Dual Grade Lasers ■ -0,5 to +25% grade range on the

Y-axis and ± 10% on the X-axis (GL720, GL722) with high accuracy. Active temperature compensation

Accurate, stable results regardless of temperature changes. Large Alpha/Numeric Display for

 Transmitter displays are visible from ground even used on tall 10 ft (3 m) tripods.

GL722

each axis

- Grade Match, PlaneLok and Automatic Axis Alignment.
- Long range Radio Remote Control.

UL633N

UNIVERSAL LASERS

The most versatile laser - ever

 Dual Grade, Horizontal, Vertical. Interior and Layout Laser based on Fan beam technology.

Fully automatic +/-25% in X. Y and Z axis

Total control for any application

Unique advanced features

 Plane-Lok, Grade Match and Axis Alignment ensure accuracy and fast setup.

HL760 Digital Readout Receiver

"Fingerprint" Technology

Long range Radio/IR remote control.

Automatic Alignment With Spot Finder (DG813 only).

OPTICAL INSTRUMENTS

DET-2 / ALXX-A/M Series Digital Electronic Theodolite

- 2 second accuracy for all construction applications.
- Dual sided LCD with large easy to read characters.
- Rechargeable and alkaline battery packs included.

Spectra Precision Auto Levels

20. 24. 28 or 32 power

LASER RECEIVERS

HR's, HL's, CR600 Traditional laser receivers

- HR150U, HR320.
- Ideal for general exterior and interior applications.
- Models with LED's and/or LCD's.

Rod clamps are standard on all receivers

Digital Readout (DRO) receivers

- HL450, HL700, HL750, HL760,
- Digital readout of elevation. Exceptional durability and warranty.
- Advanced features including radio communication

Specialty receivers

- Machine or rod mounted CR600.
- Universal receivers detect red, infrared and green beams - HL760U, HR150U,
- Line generator receiver HR220.

MACHINE RECEIVERS

LR20. LR30W. LR50W. LR60W Increase machine and

- operator productivity Check grade from the machine cab
- Saves labor, time, and fuel. Use on backhoes, excavators. dozers, box blades, trenchers.

and skid steer attachments.

All LR receivers feature

- Versatile 360 degree reception. Works with all types of rotating lasers.
- Multiple accuracy selections. Power options and long battery life. Ultra-bright LED's with green on-grade.
- LR30W-LR60W links wirelessly to the RD20 in-cab display.

 LR20 and adjustable magnetic mount for compact machines

- LR30W for
- general grading 3 selectable accuracies

 Built in blade tilt and and unique angle plumb indication

LR50W for excavating
LR60W for excavating

Plumb indication

compensation

 Strong dual adjustable magnet packs

 Works with LR30W, LR50W. LR60W
